

IT Systems & Network Engineer

www.linkedin.com/in/loay-alesawi

JORDANIAN NATIONAL | TRANSFERABLE IQAMA | VALID DRIVING LICENSE (KSA)

IT Systems & Network Engineer with hands-on experience in multi-branch infrastructure management, network deployment, and cybersecurity operations. Skilled in configuring and troubleshooting MikroTik, FortiGate, and enterprise network infrastructure. Experienced in centralized monitoring (PRTG), VLAN segmentation, DHCP, firewall administration, and data analysis using Power BI. Passionate about optimizing network uptime, securing IT infrastructure, and delivering data-driven system performance.

WORK EXPERIENCE

Cybersecurity & Data Analyst Intern

STC & Misk Foundation

2026

- Investigated system logs and identified Indicators of Compromise (IOCs) to detect and analyze cybersecurity threats.
- Applied incident response procedures, documenting findings and security analysis to mitigate system risks.
- Built forecasting models and analyzed user behavior datasets to deliver data-driven operational insights.

IT Systems & Network Engineer

Namaa Charity

2025

- Managed network operations and IT support, overseeing hardware maintenance and Odoo ERP user access control.
- Configured core network services, including DHCP, IP settings, and VLAN segmentations to resolve multi-branch connectivity.
- Oversaw centralized monitoring (PRTG) and security firewalls (FortiGate/Cyberoam) to ensure system uptime and backup continuity.
- Conducted on-site branch visits for rapid MikroTik troubleshooting and network restoration, minimizing system downtime.
- Utilized Wireshark for deep traffic analysis to diagnose and resolve complex network anomalies and security incidents.

Full-Stack Developer (Capstone Project - VolunteerLink)

Arab Open University

2024

- Designed and developed VolunteerLink, a secure and bilingual (Arabic/English) web platform.
- Secured system access by implementing Role-Based Access Control (RBAC), password hashing, and session management.
- Applied web security best practices to ensure data integrity, system availability, and secure API integrations.

RELEVANT SKILLS

Networking & Security:

- Network Infrastructure: Routing, Switching, TCP/IP, DNS, DHCP, VLANs, MikroTik RouterOS.
- Network Security: Firewall Administration (FortiGate, Cyberoam), Wireshark.
- Security & Access Control: Cybersecurity Fundamentals, RBAC, IAM (Identity & Access Management).

Systems & IT Operations:

- System Administration: Windows & Linux Systems, Active Directory.
- Enterprise Systems: Odoo ERP Administration & User Access Control.
- IT Operations: System Backups, Hardware/Software Troubleshooting.
- Network Monitoring: PRTG Network Monitor.

Data & Software Development:

- Data Analytics: Data Analysis, Power BI, Excel Dashboards.
- Web Development: Node.js, Express.js, PostgreSQL, REST APIs.

CERTIFICATIONS

- CCNA (Cisco)
- HCIA-Security (Huawei)
- CompTIA Security+ (ITR)
- FortiGate Firewall Administration (ITR)
- Wireless Network Analysis & Attack Detection (ITR)
- HCIA-Cloud Computing (Huawei)
- HCIA-IoT (Huawei)
- Ethical Hacking (Cisco)
- Linux System Engineer (Huawei)
- Cloud O&M Engineer (Huawei)

EDUCATIONAL HISTORY

BSc in Information Technology and Computing (Network and Security)

Arab Open University (AOU) – Saudi Arabia
Second Class Honours – OU UK Certified
