PROFESSIONAL SUMMARY

IT Specialist with hands-on experience in IT support, network administration, ERP system management, and cybersecurity fundamentals. CCNA-certified with practical skills in troubleshooting hardware and software issues, Windows and Linux administration, Odoo ERP user management, firewall monitoring (FortiGate, Cyberoam), DHCP/VLAN configuration, and network traffic analysis using Wireshark. Committed to maintaining reliable IT operations and continuously developing technical skills.

VIRTUAL WORK EXPERIENCE

Cloud Computing (Azure) Virtual Experience — Microsoft × Misk Foundation 2026

Cloud computing fundamentals, building Azure solutions, technology integration.

Cybersecurity Incident Response Virtual Experience — STC × Misk Foundation

IOC detection, system log analysis, incident response procedures, threat identification.

Operational Risk Analysis Virtual Experience — SIDF × Misk Foundation

Risk analysis, operational risk assessment, report preparation, critical thinking.

Data Analysis Virtual Experience — STC × Misk Foundation

User behavior analysis, forecasting models, data visualization, recommendation systems.

Business Analysis Virtual Experience — BCG × Misk Foundation

Market research, feasibility studies, financial modeling, executive summaries.

WORK EXPERIENCE

IT Support & Network Specialist 2025

Namaa Charity

- Provided first-line IT support for users across multiple branches, handling hardware, software, printer, email, and connectivity issues.
- Managed onboarding/offboarding by preparing workstations, creating Active Directory accounts, and assigning Odoo ERP access permissions.
- Installed and configured Windows systems, business applications, printers, IP phones, and basic network devices.
- Configured DHCP services, IP addressing, and VLAN segmentation to maintain reliable network connectivity across branches.
- Monitored servers, firewalls (FortiGate/Cyberoam), backups, and network availability using PRTG.
- Conducted on-site and remote support visits to troubleshoot MikroTik routers, network printers, workstations, and connectivity issues.
- Used Wireshark for network traffic analysis and troubleshooting security or connectivity problems.

KEY PROJECTS

Enterprise Network Infrastructure Lab

Cisco Packet Tracer

- Configured VLANs, Inter-VLAN Routing, DHCP, DNS, OSPF routing, and Security ACLs across a multi-router enterprise topology.

Windows Server & Active Directory Lab

Systems Administration

- Deployed Active Directory Domain Services (AD DS), Group Policy Objects (GPO), DNS, DHCP, and RBAC user access controls.

VolunteerLink — Bilingual Volunteer Management Platform

Arab Open University (Graduation Capstone Project)

- Designed and developed a secure bilingual (Arabic/English) web platform using Node.js, Express.js, and PostgreSQL.
- Implemented Role-Based Access Control (RBAC), password hashing, and session management for secure user access.

TECHNICAL SKILLS & TOOLS

IT Support & Systems:

Hardware/Software Troubleshooting · User Onboarding/Offboarding · Windows 10/11 · Windows Server · Linux · Active Directory · Microsoft 365 · Odoo ERP Administration · System Backups · Remote Support

Tools & Utilities:

Cisco Packet Tracer · VMware / VirtualBox · PuTTY · AnyDesk · Wireshark · PRTG Network Monitor · Microsoft Office / 365

Networking & Security:

TCP/IP · DNS · DHCP · VLANs · Routing & Switching · MikroTik RouterOS · Network Printers & IP Phones · Firewall Administration (FortiGate, Cyberoam) · RBAC · IAM

Data & Development:

Power BI (Dashboards & Reports) · Excel · Node.js · PostgreSQL · REST APIs
